PROFESSIONAL SUMMARY

Software Engineer with 8 months of experience building REST APIs and microservices in Java and Spring Boot. Designed, tested, and supported production APIs, automated releases with Jenkins CI/CD, and monitored live services using Grafana and Kibana. Built AI-assisted engineering workflows with the Model Context Protocol (MCP), Jira, and Bitbucket. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, and DBMS.

EDUCATION

National Institute of Technology, Kurukshetra

Aug 2022 – May 2026

B.Tech in Information Technology | CGPA: 8.17

Woodrow Public School, Bareilly

2021 – 2022

Class XII (CBSE) | 88.47%

Bishop Conrad School, Bareilly

2019 – 2020

Class X (CBSE) | 94.00%

EXPERIENCE

Software Engineer: Paytm | India

Jan 2026 – Present

- Developed and validated REST APIs and backend microservices in Java and Spring Boot, from API design through unit testing and production readiness.
- Maintained Jenkins CI/CD pipelines and coordinated requirements, sprint tasks, and release work in Jira with cross-functional teams.
- Monitored production services in Grafana and Kibana, using logs and dashboards for incident triage during live deployments.
- Built internal MCP tools to automate Jira updates and Bitbucket pull-request reviews, reducing manual steps in the engineering workflow.

PROJECTS

Code Battle (1v1 Competitive Coding Platform) | [Link](#)

- Built a real-time 1v1 competitive coding platform where users challenge opponents, select problem ratings and tags, and compete with synchronized match state and live score updates.
- Implemented the match flow with Socket.IO and integrated the Codeforces API for problem selection, using React.js on the client and Node.js with Express.js on the server.

Task Manager | [Link](#)

- Built a full-stack task management application with an admin dashboard for assigning and monitoring tasks.
- Implemented role-based authentication and REST APIs backed by MongoDB, using React.js, Node.js, and Express.js.

SKILLS

- | | | |
|----------------------------------|-------------------------------|----------------------|
| • Java | • MongoDB | • Git |
| • Spring Boot | • Node.js | • GitHub |
| • REST APIs | • Express.js | • Jenkins |
| • Microservices | • React.js | • Jira |
| • MySQL | • Socket.IO | • Bitbucket |
| • Data Structures and Algorithms | • Object-Oriented Programming | • Grafana and Kibana |

CERTIFICATIONS

Flipkart Grid 6.0, Software Development Track | [Certificate](#)

ACHIEVEMENTS

- Solved 500+ problems on [LeetCode](https://leetcode.com/) and 200+ problems on [GeeksforGeeks](https://www.geeksforgeeks.com/).
- Earned a 2-star rating on CodeChef through consistent participation in monthly contests.
